

# 2008 Florida Springs Trips

March 6-9 and April 17-20

*Is cabin fever getting to you? Do you need to burn off some carryover vacation time or just want to get out of Dodge for a few days? Well, we've got the solution! Join us on a trip to Florida's famous spring diving country, where you'll find fresh, crystal clear water, at a consistent 72 degrees. With surface temperatures often approaching 80 degrees, this is the perfect cure for the midwinter blues.*

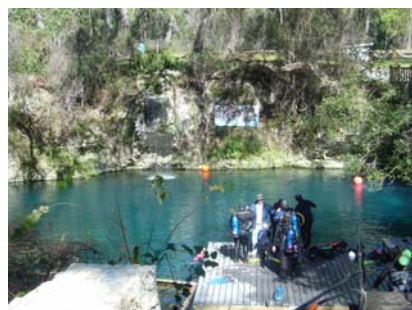

## Devil's Den

Devil's Den has one of the most dramatic topside settings of any dive site in Florida. A circular opening, approximately 40 ft across, allows sunlight to illuminate a large pool of crystal clear water 30 ft below. The cavern pool is reached by descending through a narrow rock tunnel. Once underground the dry cave mushrooms to nearly 100 ft and extends even farther under the water's surface. Depths average 45 ft with a maximum of 65 ft under the ledge. Rumor has it that the worlds largest catfish lives here too.

## Blue Grotto

Blue Grotto is a large limestone sink with an 80x20 ft cavern opening, creating a breathtaking underwater vista. (Maximum depth 105 ft.) It offers an entry pool, floating dock, and a guide rope around the cavern's interior. Surface amenities include hot showers, changing rooms, covered set-up areas, and the always popular hot BBQ sandwiches! Divers enjoy using the underwater air-bell to talk amongst themselves while remaining at 30' underwater.

**Price: \$249**

### Price includes

- Two (2) days of unlimited diving
- 3 nights lodging (dbl occupancy)
- Experienced guide/group leader
